

"I want to become an Advocate; It's my mother's dream. She suffers a lot for my education. Can you tell me what education I have to acquire to become an advocate?"

### **Abhimanyu, aged 14,**

Class V, Dipesh Bal Shiksha Niketan

"I want to become an advocate; it's my mother's dream. She suffers a lot for my education. Can you tell me what education I have to acquire to become an Advocate?" This is the question of Abhimanyu who sometimes ask his teachers. He cherishes a dream to become an advocate as it's his mother's dream.

Abhimanyu's family migrated to Jaipur 8 years ago. When he joined Abhiyan (Bharat) Foundation, he could neither speak proper in Hindi and English. His journey from a passive child with blank expression on face to very active, confident and performer is different from others. In past two years, he showed great change in him which stands him different from other children in his class. Teacher and volunteers of Abhiyan (Bharat) Foundation organized periodic public speaking sessions in Hindi and English and weekly activities so that children like Abhimanyu can get an opportunity to improve. He is very sensitive child who adores his mother. Surrounded by several family issues, he is more focused on his studies. Apart from studies, he is good in dance, sports, music. He leads the school assembly and other activities as well.
